Re: Renewal Proposal, Agreement No. ARC-MSA-2018-0142, Term March 1, 2027 to February 28, 2030

Dear Theo,

Thank you for eight years as an Archstone customer, and for the Legal Department's participation in the Insight AI pilot over the past year. Your team's feedback shaped several of the features we are bringing to general availability this fall, and we would like to propose a renewal that brings the full Insight AI suite, Premium Support, and expanded storage to all 240 of your users under a single, predictable agreement.

Proposal summary

Item	Current (Order Form No. 3)	Proposed (Order Form No. 4)
Term	March 1, 2024 to February 28, 2027	March 1, 2027 to February 28, 2030 (36 months)
Service Users	240	240
Edition	Archstone DMS Enterprise (Archstone 9)	Archstone DMS Enterprise with Insight AI
Insight AI	Pilot, 50 users, no charge	Included for all Service Users (list price \$18.00 per user per month)
Support	Standard	Premium Support included (list price \$1,500 per month)
Included Storage	6 TB	8 TB

Storage overage	\$0.60 per GB per month	\$0.50 per GB per month
Rate per Service User	\$50.39 per user per month (Contract Year 3)	\$59.50 per user per month
Annual adjustment	3%	4% on each anniversary
Invoicing	Monthly in advance	Annually in advance, net 30

The proposed rate reflects an effective adjustment of 18.1 percent against your current Contract Year 3 rate, which includes the full value of Insight AI and Premium Support. Priced separately at list, those two components alone represent \$25.25 per user per month. We believe this represents the strongest value we have offered a customer of your size and tenure.

Three-year investment

Contract Year	Rate	Annual Subscription Fee
Year 1 (Mar 2027 to Feb 2028)	\$59.50	\$171,360
Year 2 (Mar 2028 to Feb 2029)	\$61.88	\$178,214
Year 3 (Mar 2029 to Feb 2030)	\$64.36	\$185,357
Total		\$534,931

Prepayment option. Should Vandelay elect to prepay the full three-year subscription at signing, Archstone will apply a 5 percent discount, for a total of \$508,184.

Loyalty pricing

This proposal reflects loyalty pricing available to Vandelay as a long-standing customer and is valid for acceptance through **October 15, 2026**. After that date, renewal pricing will be set in accordance with Section 7.2 of the Agreement at Archstone's then-current rates for the Enterprise with Insight AI edition, currently \$64.00 per user per month, and the Premium Support inclusion will no longer be available.

We would welcome the opportunity to finalize terms with you and Procurement before October 15 so that your team enters the new term with Insight AI fully enabled.

What is new in Archstone since your last renewal

Insight AI, generally available. Document Summary, Ask the Workspace, Drafting Assist, and enhanced Filing Suggestions move from pilot to general availability in October 2026, joined by two new capabilities: Matter Timeline, which assembles a chronology from a workspace's documents and email, and Compare, which produces a clause-level comparison of any two documents. Insight AI is powered by Archstone's Intelligence Fabric, which combines retrieval over your Repository with leading foundation models under Archstone's data-handling terms in Schedule C.

Premium Support. A named Customer Success Manager, a two-hour first-response target for Priority 2 issues, quarterly health reviews, and priority access to release briefings.

Platform investment. Following Archstone’s acquisition by Greyfell Capital Partners in 2025, we have increased research and development investment by 40 percent and expanded our engineering team, with a roadmap focused on AI, governance, and performance in our international regions.

SCHEDULE A: ORDER FORM NO. 4 (PROPOSED)

Customer: Vandelay Industries, Inc., Legal Department **Archstone Account Executive:** Devin Okafor **Effective:** March 1, 2027 through February 28, 2030

Item	Description	Quantity	Unit Fee	Annual Fee (Year 1)
Archstone DMS Enterprise with Insight AI	Cloud document management on Archstone 9 including all modules in Order Form No. 3, plus Insight AI for all Service Users	240 Service Users	\$59.50 per user per month	\$171,360.00
Premium Support Included	Per Schedule B	Included	Included	Included
	8 TB (8,192	Included	Included	Included

Storage GB)

**Total Annual
Subscription
Fee (Year 1)**

\$171,360.00

Additional terms.

1. Additional Service Users: \$59.50 per user per month, prorated, subject to the four percent (4%) annual adjustments. Reductions per Section 2.2 of the Agreement.
2. Storage overage above Included Storage: \$0.50 per GB per month.
3. Subscription Fees increase by four percent (4%) on March 1, 2028 and March 1, 2029.
4. Invoicing: annually in advance, net 30. Prepayment option per the proposal letter.
5. Professional Services not covered by an SOW: \$375 per hour.
6. Renewal Term duration following this term: thirty-six (36) months, per Section 1.2 of Amendment No. 2. Notice of non-renewal per Section 6.1 of the Agreement as amended.
7. Insight AI is provided subject to Schedule C, which forms part of the Agreement upon execution of this Order Form and supersedes Section 2 of Amendment No. 3.
8. This Order Form is valid for acceptance through October 15, 2026.

SCHEDULE B: PREMIUM SUPPORT

Premium Support supplements Exhibit B of the Agreement as follows for the duration of the term:

1. **Named Customer Success Manager** assigned to Customer's account, with quarterly health reviews.
2. **Priority 2 first response** target of two (2) business hours (Exhibit B standard: four).
3. **Priority 1 status updates** every hour (Exhibit B standard: every two hours).
4. **Release briefings** delivered to Customer Help Desk Contacts at least fifteen (15) business days before general availability.
5. **Extended support hours** of 6:00 a.m. to 8:00 p.m. Mountain Time, Monday through Friday.
6. **Up to twelve (12) Customer Help Desk Contacts** (Exhibit B standard: six).

All other provisions of Exhibit B, including Section IV (Service Availability and Service Credits), are unchanged.

SCHEDULE C: INSIGHT AI TERMS

These Insight AI Terms govern Customer's use of the Insight AI features of the Services from the commencement of the renewal term and supersede Section 2 of Amendment No. 3.

1. Insight AI Features

"Insight AI" means the generative and machine-learning features of the Services described in the Documentation, including Document Summary, Ask the Workspace, Drafting Assist, Filing Suggestions, Matter Timeline, Compare, and such additional features as Archstone makes generally available during the term.

2. Content and Signals

2.1 "AI Content" means Customer Data that Service Users submit to, or that is retrieved by, Insight AI, together with prompts entered and outputs generated.

2.2 "De-identified Content" means AI Content from which Archstone has removed names of natural persons, email addresses, telephone numbers, and other direct identifiers using Archstone's de-identification process, as described in the Documentation.

2.3 "Usage Signals" means metadata about how Service Users interact with Insight AI, including feature invocations, acceptance or rejection of suggestions, query patterns, and relevance feedback.

3. Archstone's Use of Content and Signals

3.1 Archstone uses AI Content to provide Insight AI to Customer.

3.2 Archstone may use De-identified Content and Usage Signals to train, evaluate, and improve the models, retrieval systems, and features underlying Insight AI, including models and features made available to Archstone's customers generally. Archstone applies technical and organizational measures designed to prevent De-identified Content from being reproduced verbatim in outputs delivered to other customers.

3.3 Customer may request to opt out of the uses described in Section 3.2 by written notice to Archstone. Archstone will implement the opt-out within sixty (60) days. Customer acknowledges that opting out may limit the availability, performance, or pricing of certain Insight AI features, as described in the Documentation.

3.4 Archstone's agreements with third-party model providers prohibit those providers from using AI Content to train their own models and from retaining AI Content beyond the duration of a request.

4. Outputs and Responsibility

Outputs generated by Insight AI from Customer Data are Customer Data as between the Parties. Archstone does not warrant the accuracy, completeness, or suitability of

outputs. Customer is responsible for reviewing outputs before relying on them and for its Service Users' compliance with applicable professional obligations.

5. Permissions

Insight AI respects workspace permissions and ethical walls. A Service User cannot retrieve content through Insight AI that the Service User could not otherwise open.

6. Logs

Archstone retains prompt and output logs for Customer's tenant for ninety (90) days for abuse detection, support, and quality evaluation, after which they are deleted or de-identified in accordance with Section 2.2.

7. Feature Controls

Customer's administrators may enable or disable Insight AI for Customer's tenant, for groups of Service Users, and for individual features, through the administrator console.

8. Relationship to the Agreement

Insight AI is part of the Services. Exhibit C applies to Personal Information processed by Insight AI. In the event of conflict between these Insight AI Terms and Section 5.2 of the Agreement, these Insight AI Terms control with respect to AI Content and Usage Signals.

End of Schedule C.
